

MyConsult Second Opinion

Cleveland Clinic's MyConsult Online Medical Second Opinion program connects you to the expertise of top Cleveland Clinic specialists without the time and expense of travel.

How does it work?

Through the secure web platform, members and eligible dependents can submit their detailed health information, medical records and diagnostic test results. The most appropriate Cleveland Clinic expert is assigned to the consultation and will render a detailed second opinion. The report includes commentary about the diagnosis and treatment options or alternatives and recommendations regarding future therapeutic considerations. Members are also able to send additional questions to the physician who provided the report.

The Cleveland Clinic expert will work directly with you and your family physician to make recommendations about your treatment plans or options.

Use MyConsult Online Medical Second Opinion to:

- Make the most informed decision about your healthcare or that of an eligible dependent
- Ensure your diagnosis is correct
- Ensure your treatment plan is optimal for you
- Receive a comprehensive written report from a Cleveland Clinic expert
- Learn about new, innovative treatment options
